### **8) Chief's Report**

*The Fire Chief may update the Board on items of interest relating to but not limited to the following: Response times, vehicles, facilities, labor relations, personnel, finance, grants, communications and/or training. Alternatively, the Fire Chief may provide written comments in the Board Member's packets or by email. The Board Members may ask clarifying questions and they may direct the Chief to place items on future agendas for further discussion or action.*

- The construction of the training yard is going very well. Captain Kennedy is taking the lead on the project. The yard has been cleared, graded and gravel has been installed. The firefighters are doing most of the work themselves to put together a creative training yard on a shoestring budget.
- A Driver-Operator Class is currently taking place at the District. This class will provide both State certification and Pima College credit. Chief Delfs is looking forward to teaching next week.
- The District has met all response times.
- We are very pleased with the new ambulance. It is mechanically sound and is a strong addition to our reserve fleet.

9) **Review, Discussion and possible Action** to approve the February 2018 Financial Reports and authorize the Chairman and Clerk to sign the *Certificate of Review*.

Vice-Chairman Bauer motioned to approve the February 2018 Financial Reports and authorize the Chairman and Clerk to sign the *Certificate of Review*. Clerk Neilson seconded.

***Motion carried unanimously, 5:0.***

10) **Review, Discussion and possible Action** to review the preliminary FY19 Budget and 2-Year Budget

Chief Delfs addressed the Board explaining that the information which was provided is a preliminary overview of the FY19 Budget and two year projection. He highlighted the following items:

- The budget shell is based on historical data. Because actual revenues and expenditures have been within 3% of prior budgeted projections, we are confident that the projected FY19 figures are just as tight. The budget is becoming more sustainable every year.
- Since FY11, Pima County assessed values have decreased by 21.22% resulting in a total combined assessed value decrease of 18% with a corresponding decrease in tax levy revenue of 16%.
- Tax levies for the current fiscal year were equal to the FY09 levies. Even with the voter-approved tax levy override, the projected FY19 budget will reflect tax levies which only equate to the FY12 levies.
- Ambulance revenue has only increased 2.5% even though the District is implementing the State-allowed automatic rate increases. The District is still experiencing a 55% collectability rate.
- Even though the District has obtained several new fire service subscriptions, the total revenues they will bring in are too immaterial to make a significant impact on our bottom line.
- Please note that we have not planned for capital or travel expenditures. If these expenses arise during the fiscal year, they will be expended from the strategic reserve.
- Last FY17 ended with a strategic reserve carryover amount of \$801,800 largely due to the receipt of the final Pulte distribution and the SAFER grant funds. Although this large carryover helped to mitigate the impact of reduced tax levies during the current fiscal year (FY18), we are anticipating ending the fiscal with a smaller carryover amount of \$650,000. The budget shell shows that this strategic reserve carryover will continue to be depleted during the following budget year.
- Employee Related Expenditures (ERE) make up 80% of the budget, which is normal for a governmental entity. These expenditures are projected to be approximately 3% lower due to significant decreases in overtime hours, grandfathered benefit rates and normal attrition.
- The District has applied for 3.5 million in grants, and we are still awaiting responses.

Chairman Castaneda offered praise and expressed thanks to the team, commenting that recent years of reliable data have significantly helped the Board to make informed decisions.
