The well pump in the ground at Station 193 went out. The Chairman was notified the day of the event and emergency approval was given to seek repair with the caveat that retroactive approval be formally given at the next Board meeting. Subsequently, the same problem occurred with the in-ground well pump at Station 191. Director Horch motioned to approve the emergency expenditure of \$5600 for repair of the well pump at Station 193, as well as additional expenditure for repairs of the well pump at Station 191. Clerk Neilson seconded. *Motion carried unanimously, 4:0.*

13) **Review, Discussion and possible Action** regarding Resolution 2017-07 pertaining to Drowning Impact Awareness Month – August 2017

15) **Review, Discussion and possible Action** regarding the possible surplus of Ambulance 307

Chief Delfs explained that Ambulance 307 was in a serious accident many years ago. Although it continues to pass inspection, it is becoming more and more costly for the District to maintain it. Clerk Neilson inquired when the District would replace the ambulance if it is surplus. The Chief responded that the District has written grants for 3 ambulances and we are waiting for a reply. Clerk Neilson motioned to approve the surplus of Ambulance 307. Director Armendarez seconded.

Motion carried unanimously, 4:0.

16) **Review, Discussion and possible Action** regarding approval of expenses for the maintenance of Apparatus 216 for engine repairs and for Apparatus 217 water tank replacement

Chief Delfs explained that although the engine on Apparatus 216 was rebuilt within the past several years, the rings never seated properly. The parts are out of warranty. The good news is that the labor cost will be waived if we take it back to the original vendor. The cost of repair is estimated at \$6000.

Engine 217 is currently out of service because the tank continues to leak. There is an estimated six week turnaround for repairs. This engine is meant to be operated on pavement. Because we have many off-road calls, the tank bounces against the frame causing it to leak. Only two responses were received. One estimate is approximately \$11,000 if our mechanic does all the repairs. The second estimate is for \$12,500 with a one-year warranty and the vendor will complete all the repairs.

Director Horch motioned to approve expenses necessary to repair the engine on Apparatus 216 and to replace the tank on Apparatus 217. Director Armendarez seconded. *Motion carried unanimously, 4:0.*
